## BIG GAME'S PROGRESS

The Anticipated Meeting of the Hos-  
tile Fleets Has Not Yet Come  
to Pass.

An Exciting Night Fraught With  
Rumors and Many False  
Alarms.

Rockport, Mass., Aug. 22.—With the  
coming of daylight this morning more  
than forty hours had passed of the pos-  
sible 120 for the naval conflict between  
the attacking squadron in charge of  
Commander Pillsbury and the defend-  
ing squadron commanded by Rear Ad-  
miral Higginson. The coming of an  
other day was recorded, but the antici-  
pated meeting between the hostile

COMMANDER PILLSBURY.

fleets had not come to pass. After a  
day which had been on the whole de-  
void of many sensations, the night,  
thick and cloudy as it was, with the  
moon quite obscured, developed so  
many confusing situations and so  
many extraordinary reports that the  
Higginson squadron had just cause for  
grave uneasiness. Somehow the feel-  
ing grew that it would not be such a  
difficult attainment after all for the  
three auxiliary cruisers of the white  
squadron to slip in and anchor at some  
harbor, protected as they would be  
by the inviting darkness which pre-  
vailed.

Perhaps the greatest danger which  
came to Admiral Higginson was that  
of yielding to the temptation to with-  
draw the Kearsarge and leave only the  
Alabama and the Massachusetts to  
go in search of the enemy reported  
on apparently reliable authority to  
have been sighted at either this point  
or that point along the coast. Such  
reports were, in fact, made.

In the early part of the night the  
station on the Isle of Shoals notified  
the nearest mainland point by the use  
of torches and the secret code of the  
navy that a large, strange, two-masted  
craft had been sighted outside the  
shoals. Admiral Higginson's wonder-  
ful system of signals worked to per-  
fection. Almost in a moment, it seemed  
the destroyer Decatur was rocketed  
from Portsmouth to pursue the mys-  
terious comer, and in another moment  
the Decatur, with the smoke belching  
from her four great stacks, was  
ploughing furiously through the heavy  
seas. The stranger turned and fled  
at full speed, and this fact led to the  
decision that she may have been one  
of the attacking fleet passing onward  
on scout duty.

At 11 o'clock came another report  
of a strange ship sighted south of  
Eastern Point Light, Gloucester. Ad-  
miral Higginson at once ordered the  
torpedo boat Bagley to investigate, but  
the Bagley failed to her surprise that  
it was the cruiser Brooklyn, which  
had come down from her northern sta-  
tion pursuant to the privilege extended  
by Admiral Higginson.

The reason that the Admiral stead-  
fastly refused to leave his anchorage  
in the harbor here was that he dared  
not leave Rockport exposed to the en-  
emy, which, taking advantage of need-  
less passage of the defending battle-  
ships to another port, might easily  
creep in and drop anchor at the very  
heart of the operations of the blue  
squadron. It was these considerations  
that forced Admiral Higginson to the  
conclusion that on none but the sur-  
est authority would he leave the Rock-  
port station to join other members of  
his squadron in the work of putting the  
enemy out of action.

## SUSPICIONS AROUSED

Intimations Are Made That Robert  
Remington Was Murdered.

Williamsport, Pa., Aug. 22.—It is  
learned here today that Edward P.  
Remington, the brother of Robert R.  
Remington, who was supposed to have  
committed suicide at Newport, R. I.,  
on Monday, believes he was murdered.  
An investigation is under way to verify  
or disprove the theory. A conference  
was held last night between Mr. Rem-  
ington's attorney and the physicians  
who performed an autopsy yesterday.  
It is reported from an authoritative  
source that Edward P. Remington is  
not satisfied that his brother Robert  
died by his own hand. When it be-  
came known that he was entertaining  
a suspicion of foul play, which origi-  
nated before he left Newport for the  
body, a reporter called on Mr. Rem-  
ington and requested a statement. He  
replied that he would neither deny  
nor affirm anything relative to his  
brother's death except that the autopsy  
performed yesterday revealed that  
the bullet in the mouth caused death.  
When asked if the bullet found im-  
bedded in the dead man's brain fitted  
the revolver found by his side, he de-  
clared that he had nothing further to  
say. Asked if developments in the  
case could be expected, he said time  
alone would tell.

Mr. Remington and his attorney,  
Seth T. McCormick, as well as the  
physicians who performed the autopsy,  
were together in secret conference  
until late last night, and their action  
is surrounded by much mystery. They  
positively refused to give out any fur-  
ther information.

## HARD COAL FAMINE

Chicago Feels Effect of the Anthracite  
Strike.

Chicago, Aug. 22.—An immediate  
hard coal famine threatens Chicago.  
In the entire city there is not more  
than 50,000 tons on hand today, and  
as one-half of that has already been  
contracted for or bought outright, the  
public has only 25,000 tons of hard fuel  
available for purchase. Usually at  
this time of the year there are 300,000  
tons of hard coal within the corporate  
limits. Heretofore unlimited quan-  
tities could be purchased at \$7.25 a  
ton, but today the majority of dealers  
are asking \$8.50 and some of them  
want \$9.

## Drunken Brakeman's Deed.

English, Ind., Aug. 22.—Wesley  
Sherber, conductor on a local freight  
train, was shot and probably fatally  
wounded by Brakeman Bishop at Mil-  
town, twelve miles east of here. Bish-  
op had been drinking and was unable  
to do his work, and the conductor  
ordered him to take his clothes and  
get off the train. The brakeman went  
to the caboose, as the conductor sup-  
posed, to get his clothes, but returned  
and fired four shots at Sherber, one  
of which struck him in the lower part  
of the back. Bishop attempted to  
shoot the constable at Milltown who  
arrested him, the bullet passing be-  
tween the fingers of the constable.  
Bishop lives at Mt. Sterling, Ky., and  
has been in trouble before, having  
served in the penitentiary at Frank-  
fort, Ky.

## Mistaken For Burglar.

Guthrie, Okla., Aug. 22.—J. M. Mc-  
Morris, an aged and well-known resi-  
dent of Charleston, Ills., was mistaken  
for a burglar in the home of J. F.  
Shaffer at Oklahoma City Wednesday  
night and shot by Shaffer, wounds be-  
ing inflicted from which he died last  
night. McMorris entered the house  
thinking his daughter, Mrs. Fred  
Trotman, still owned it, and was  
bending over the cradle to caress his  
supposed grandchild when Shaffer  
shot him. McMorris' dying statement  
exonerated Shaffer.

## Neighbor Suspected.

Russellville, Ky., Aug. 22.—Develop-  
ments point to a neighbor of the Vick  
family as the guilty party to the mur-  
der of Miss Zoda Vick. A track made  
by a peculiar shoe he wore which was  
found near the spring where the murder  
occurred caused suspicion, and it  
is learned that he had fled.

## He Had Objections.

uskoque, I. T., Aug. 22.—Jas. Hope,  
a Crook freedman and farmer, living  
seventeen miles west of Bufala, was  
lodged in jail yesterday, having con-  
fessed to killing his wife because she  
joined a secret society. He chopped  
her head off with an ax.

## Seattle Gets It.

St. Paul, Aug. 22.—Seattle was last  
night selected as the city in which  
will be held the next session of the Trans-  
Mississippi congress in 1903.

## A STOOL PIGEON

**That Is the Attitude Peter  
Power Takes In the Big  
Merger Suit.**

## HE SHIELDED OTHERS

**Man Who Is Held In Contempt of  
Court Personally Testifies to  
His Part In Case.**

**Bourke Cockran and Others Are Said  
to Be the Real Plaintiffs In  
the Action.**

New York, Aug. 22.—Lawyer George  
Alfred Lamb, attorney for Peter Power,  
went on the stand yesterday and  
told all he knew about the Northern  
Pacific merger suit. He named the  
men who with Power as plaintiff and  
Captain Henry Stern as go-between,  
he said, had hoped to conceal their  
connection with the litigation and  
keep their identity hidden. Those he  
named were: W. Bourke Cockran,  
Camille Wedenfeld, H. Content & Co.,  
and Edwin R. Thomas of the firm of  
Thomas & Post, Wall street bankers  
and brokers.

The story of Power's wandering  
came out, and a plan to send him to  
Europe was revealed, as was his quasi  
connection with the suit at issue.  
Lamb said that he was practically  
forced by the people back of him to  
send Power away and that they paid  
the expenses of his trip to West Hur-  
ley and to Montreal. Wedenfeld,  
Cockran and other sponsors of the  
Power suit, Mr. Lamb declared, feared  
that Power would be broken down as  
a witness and would "give away the  
people behind it."

Cockran was telephoned to for ad-  
vice in his presence. Lamb declared  
he was one of the persons for whom  
Lamb was given to believe he was act-  
ing in pushing the suit, and he was  
one of those who advised Power to  
stay out of the court's jurisdiction and  
was ready to supply him with funds  
to enable him to do so. Mr. Lamb told  
the story readily, released, as he said,  
he considered himself, by the action  
of his clients in repudiating him as  
their counsel.

Peter Power himself was on the  
stand at the afternoon session. He  
said to the best of his belief he had  
received the 100 shares of stock in  
payment for the use of his name. That  
was his sole interest in the suit. He  
had been instructed that the subpoena  
service was bad and had left New  
York city with that understanding. In  
a measure his testimony was corrobor-  
ative of that given by Lawyer Lamb  
regarding the connection of Messrs.  
Cockran and Wedenfeld with the suit.  
W. Bourke Cockran in an interview  
last night characterized all the testi-  
mony relating to him as false in every  
detail.

## VERDICT AGAINST SON

**William Bartholin Charged By Jury  
With Murdering Mother.**

Chicago, Aug. 22.—The coroner's  
jury at the inquest yesterday over the  
body of Mrs. Anna Bartholin brought  
in a verdict recommending that her  
son, William Bartholin, be arrested  
and held as principal for her murder,  
and that Oscar Thompson and Edward  
Counselman, who are under arrest ac-  
cused of complicity in the murder of  
Minnie Mitchell be held to the grand  
jury as accessories to the crime. The  
jury found that Mrs. Bartholin came  
to her death on or about July 7, death  
being due to strangulation.

## Aged Woman As ailed.

Fort Scott, Kan., Aug. 22.—A young  
negro yesterday entered the home of  
William H. Taylor, a retired business  
man of this city, and assaulted Mrs.  
Taylor, who is nearly sixty years old.  
Mrs. Taylor was alone when the negro  
entered the house and was unable to  
give the alarm until a half hour after  
the crime was committed. Posses  
were quickly organized and a thorough  
search was made in the country south  
of here. A negro who says his name is  
Jasper Scott and claims that he lives  
in Kansas City, was arrested last night  
and identified by Mrs. Taylor.

## Parachute Failed.

Danville, Ills., Aug. 22.—At the Ho-  
mer fair yesterday afternoon 12,000  
people saw the aeronaut, L. A. Sar-  
tell of Fairwell, Mich., fell 1,200 feet  
When he cut loose from his balloon  
his parachute failed to open. His feet  
were driven into the earth six inches  
and there was a compound fracture  
of both limbs. He may recover. Sar-  
tell's wife was killed two months ago  
by a fall from a balloon near Cairo,  
Ills., the parachute refusing to open.

## Cockrill Case Venned.

Jackson, Ky., Aug. 22.—Special  
Judge Ira Julian, after hearing evi-  
dence for two days, decided yesterday  
to grant a change of venue in the case  
of Tom Cockrill, charged with the mur-  
der of Ben Hargis in Breathitt county.  
The case will be transferred to Com-  
pton, Wolfe county.

## End of Domestic Quarrel.

Keokuk, Ia., Aug. 22.—Mrs. Edward  
E. Zimmerman, a bride of seven  
months, committed suicide at Fort  
Madison in this county by drinking a  
vial of carbolic acid after a quarrel  
with her husband over a trivial mat-  
ter.

## ACTION URGED

**Public Alliance At Wilkesbarre Calls  
For Arbitration.**

Wilkesbarre, Pa., Aug. 22.—T. W.  
Hart, chairman of the Public Alliance  
of Wilkesbarre, issued an address to  
the press and public last night in  
which he urged that every influence  
be used to bring about the settlement  
of the coal strike by arbitration. He  
says the situation is now becoming  
acute and threatens every business  
in the strike region.

The Warnke washery at Duryea pre-  
pared considerable coal for the market  
yesterday. The washery is still under  
heavy guard, but the strikers have  
made no attempt to interfere with the  
employees. Doubt is expressed at  
strike headquarters whether J. P. Mor-  
gan will use his influence with the  
presidents of the coal-carrying rail-  
roads to bring the strike to a close.

## No Plans Formed.

Chicago, Aug. 22.—President John  
Mitchell of the United Mine Workers  
of America, who came to Chicago  
Tuesday night to meet the officials of  
the Illinois Mine Workers' union, left  
for Wilkesbarre, Pa., last night. Mr.  
Mitchell declared that he knew nothing  
of any steps to bring the strike in  
the anthracite fields to an end.

London, Aug. 22.—The shah visited  
Westminster Abbey yesterday after-  
noon. Last evening, accompanied by  
Prince Arthur of Connaught, the mar-  
quis of Lansdowne, secretary of state  
for foreign affairs, and Lady Lan-  
sdowne and others attended by his  
highness the Atabek-Azam, grand vizier,  
and a large suite and escorted by a  
detachment of the life-guards, he was

enjoyed the performance.

groes were killed and James Randolph,

caused by the apprehension of some  
negro corn thieves.

## Harris at Mitchell.

Word reached here Thursday that George Harris who left here Tuesday night after beating his wife was at Mitchell. Mrs. Harris had a card from him and he wanted her to come to Mitchell today. He reported that the little child which he took away when he left is with him and is all right.

Mayor A. W. Mills made a busin. trip to Mitchell today.

Policeman Prewitt went to Cincinnati last evening on business. This is a very appropriate time for him to take a little vacation.

Word reached here today that in the burning of the Monon depot at Bedford a few days ago the household goods of Lewis Jackson formerly of Freetown, were burned. He was moving to Monon and his goods were in the depot waiting to be loaded in a car.

## A Cheerful Face.

Next to the sunlight of heaven is a cheerful face. There is no mistaking it. The bright eye, the unclouded brow, the sunny smile—all tell of that which dwells within. Who has not felt its electrifying influence? One glance at this face lifts us out of the mists and shadows into the beautiful realm of hope. One cheerful face in the household will keep everything warm and light within. It may be a very plain face, but there is something in it we feel, yet cannot express, and its cheery smile sends the blood dancing through our veins for very joy. Ah, there is a world of magic in the plain, cheerful face, and we would not exchange it for all the soulless beauty that ever graced the fairest form on earth!—Exchange.

## A Story of Queensland's Mines.

Three men had arranged for a blast of dynamite. Two of them walk away, while the other lights the fuse. The fuse being lighted, the navy throws the lighted match aside. It drops into a keg of gunpowder, and he is blown up.

He falls, lacerated and burned. Just across the hole where the dynamite is. His comrades see his danger, run forward and drag him away just in time. And they go on with their work as if nothing had happened.—"Queensland in 1889"

## The Source of Complexion.

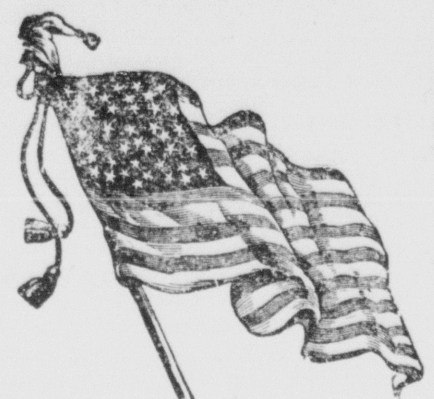

According to Dr. York, offspring always takes the complexion from the father; hence, if a father of a negro baby has any white blood in his veins, the child at birth will be nearly as white as a Caucasian. On the other hand, the child of a white mother and a black father will, after a month's time, be nearly as black as the full blooded negro.—London Standard.

## REUNION OF SOLDIERS.

Annual Meetings Well Attended and Greatly Enjoyed.

The annual reunions of the 22nd and 145th Indiana regiments closed this forenoon and nearly all of those who came to attend them have departed for their homes. The attendance at the reunion of each regiment was very good and all present were pleased with the success that characterized the meetings. Seymour was glad to have these old soldiers within her gates and assures them a hearty welcome in the future.

Both regiments held business sessions Thursday afternoon and Friday morning. The 22nd elected the following officers:

President, Jacob Ault, Becks, Ind.  
Vice President, F. P. Taggart, Nashville, Ind.  
Secretary, George W. Bard, Crothersville

They decided to hold their next annual reunion at Nashville, Brown county, September 19, 1903. This association expresses its sincere appreciation and thanks to Mayor Mills, the Methodist choir, and to the citizens generally for courtesies extended during their stay in our city.

The members of the 22nd Indiana who were present and enrolled were:

## JAPANESE JOTTINGS.

Chrysanthemums served as a salad are a favorite article of diet among the Japanese.

At a Japanese banquet it is considered a compliment to exchange cups with a friend.

Japanese cooks are the most cruel in the world. They cut every atom of flesh off a living fish pigmeat without first causing death.

The lower class of the Japanese employ hardly any other material than paper for their clothing. Where wages are exceedingly low, cloth is an impossible extravagance.

Every hotel in Japan has a fan, special to itself, containing a view of the hotel and a blessing from the writings of Confucius. One of these is always given to the departing guest.

Many Japanese women are undergoing the slight surgical operation necessary to straighten the slant of the eyelid, which distinguishes them so unmistakably from Caucasian women.

The Japanese eat more fish than any other people in the world. With them meat eating is a foreign innovation, confined to the rich, or, rather, to those rich people who prefer it to the national diet.

## Birds' Eggs Too Much For Science.

It is not often that science acknowledges herself at fault in an apparently simple matter, but she frankly does so in regard to the color and marking of a large proportion of birds' eggs. A reason there must be for their infinite diversity; it cannot be an aesthetic one, and all we can say with any confidence is that the ever pervading instinct of distrust is probably exhibited in eggshells as in more important things, and the main idea in their scheme of coloration has been the securing of safety from many enemies by harmonizing them with their surroundings. But it is a scheme full of perplexing exceptions, which any one can study for himself.—*Nat. Hist. Gazette.*

## THE CAMPFIRE.

The campfire at Armory Hall Thursday night in which the 22nd and 145th and members of many other regiments joined was an interesting and successful feature of the regimental reunions. The crowd present completely filled the hall. The Union Veteran Legion attended in a body and when they entered singing "Rally 'round the Flag" they were heartily applauded. Comrade Thos. Jones presided. After some music by the martial band and a song by the M. E. choir prayer was offered by Rev. J. W. Moody. The address of welcome by Mayor A. W. Mills, was read by Comrade Jones, as the mayor was unable to be present on account of council meeting at the same hour. Mayor Mills, however, in the written address extended a hearty welcome to the old soldiers. To this Rev. J. M. Baxter responded in a happy and appropriate manner. He was followed by Dr. Lewis Schooler, of Des Moines, Iowa, a member of the 145th Ind., who spoke eloquently to the occasion. Comrade John Hamilton and others made short and appropriate talks. Comrade Thos. Jones made the closing speech, speaking especially in behalf of the 22nd and the 145th. He made a good speech. The campfire was a decided success.

## IN MANDALAY.

Thousands of Pagoda Bells Ring at the Setting of the Sun.

Mandalay has its own sky, soft and gray and incuring like a tent, with white cloud lines that seem meant for scrolls if one could read. It is the Very Sacred City, the city of contemplation, the city of all the monks. A thousand pagoda bells give tongue to the wind there when the sun goes down; a crumbling thousand more give up to time the testimony of outworn things.

It lies in a curved arm of blue hills, and something broods over it with solitude. This you suspect from the air of the place and the way the shrill talk of the parrots and the complaint of the goats and the laughter of the people come to you wherever you are sitting. Afterward you go out, as I did that morning with the commissioner, and see under the very zenith, where the low gray sky is caught up, the square of the dark red crenellated walls of the old royal city, three miles each way, and outside the walls the parallel clear moat thinking back at the sky, and then you are sure that over and above the government of India some spirit is in possession here, some spirit that bends in affection over finished and forgotten things.

Seven roofed kiosks stand at intervals over the gates in the wall—they are called pythats, but they strike the eye like peaceful conclusions—and low white stone bridges raised in the middle span the moat. The buttresses of the gates are painted deep gray and white, and the bank that slants steeply from the wall to the water has here and there a low, twisted, spreading tree on it, purely for decoration. You may step at a corner and look two ways along the reflecting water, with bridge after bridge receding across, and pythats after pythats diminishing above, and each red and gray and white vista so picked out and finished under the quiet light slipping adorably into the near blue of the hills.

Mandalay seemed aware with bunting that day, flags and arches of welcome everywhere and crowds flocking—aware and almost awake—but you looked again and saw that she only turned in her sleep and smiled, as at a dream.—Exchange.

## COUNCIL PROCEEDINGS.

Business Transacted by City Dads Last Night.

The city council met in regular session last night. During the temporary absence of Mayor Mills, Gibson was called to the chair to preside until the mayor arrived.

All the councilmen answered to roll call but Hoskins.

Perry Jones, the new councilman from the Second ward, was in his place back of the circular table between Price and Heuser and behaved very nicely all evening.

Stewart, of the light committee, made a written report of the the old and the new fire hose. The new hose was found all right but several sections of old hose were burst. They were tested with a water pressure from 80 to 100 pounds.

At this juncture Mayor Mills entered and took his place.

Ahlbrand, of the improvement committee, reported that owing to the absence of Hoskins, they were not able to make a final report on the matter of the new bridge at West Second street.

Fire Chief Krueger made a statement to the council that since the fire hose was now in good shape, it would be well to look after the hose houses for the better protection of equipment. Better locks for the doors and a more careful distribution of keys were recommended. Referred to fire committee.

The civil engineer, George Slagel, reported that he had communicated with the proper officials of the P. C. C. & St. L. railroad and found that the railroad preferred to maintain a ditch not less than six feet from the ends of the ties for their protection against careless driving. This need not hinder the grading of Indianapolis Avenue as contemplated and will necessitate less cutting in the street grade. The grade of that work will be made to conform to the railroad grade.

Objections to the grading and graveling of the west side of Indianapolis avenue from Third to Seventh street were called for. There being no objections, bids for the work were called for. Only one bid was on file. Chris Moritz agreed to make the excavations and do the grading for 20 cents per cubic yard and to do the graveling at 60 cents per cubic yard. Bids were referred to the improvement committee with power to act. Mr. Moritz gives bond for \$300 for the faithful performance of the work.

Phil Feist, township trustee, gave notice to the city to clean out city's portion of McDonald ditch, Peters ditch and Blush ditch. Referred to improvement committee to get bids on work.

The street commissioner made a detailed report of work done the last two weeks. Total expense of street department for the two weeks, \$126.15. The street commissioner also submitted a report showing expenses of his department for the past quarter as follows:

Labor, general street work.....\$309.75  
Labor, alley cleaning.....200.00  
Teams, general street work.....100.00  
Teams, alley cleaning.....72.67  
Teams, gravel, 304 loads.....190.00  
General supplies.....42.35  
Total expense for the quarter, 914.77

The resignation of Lon Prewitt as merchant police to take effect Sept. 1, was read and accepted.

The following school levy was recommended by the school board:

Special fund, 20 cents on each \$100 of taxable property and 25 cents on each taxable poll. The same levy was made for tuition purposes, and two cents on each \$100 for library purposes. Referred to committee on public schools with power to act.

## TEACHERS' INSTITUTE

### The Enrollment Reached 184 on Thursday.

Thursday morning the opening exercises were conducted by Prof. McKenna. Prof. Kinsey again took up the subject of music discussing position, breathing, etc. A number of new songs were learned. The work on rudiments was intended to cover most of the staff and staff relation. The great trouble with people learning to sing is, they try to sing without thinking.

Nature study by Dr. Dennis.—Every plant or animal is especially adapted to the kind of life it leads. Dr. Dennis showed this by a number of illustrations but our limited space will admit touching only upon one. There is a great struggle for existence. A beautiful and valuable illustration of this is noticeable among trees. The tree which grows alone in open ground does not usually grow very high. Its branches have plenty of room to spread and develop. The trees of the forest are tall. Competition is sharp. Each must lift its head as high as its fellows in order to obtain a sufficient quantity of sunshine and air or be smothered and perish.

Each adapts itself to the principles of its environment. What is true of the tree is also true of man. If in the course of teaching you come in contact with a perplexing question study surrounding nature which in most cases has a remedy. Dr. Dennis also shows a number of practical experiments which may be used in the school room to arouse the interest of the children. One plan of governing is to be able to entertain. The principle of success is harmony.

Prof. McKenna, history.—In time remote the captives of war were slain, or adopted into the tribes. They had no industries in which to use them. Later agricultural and mechanical interests arose. Then the captives could be used advantageously. The recognition of freedom and equality of men shows an advancement of civilization.

Slavery was not an institution of the United States, but rather a burden which it inherited from the colonies at its formation. Slavery was unprofitable to the north. It discouraged immigration. The vast stream of immigration instead of going into the slavery states turned to the North. Free labor could not compete or hardly exist with slavery. The invention of the cotton gin and the Louisiana purchase gave slavery a firmer footing. Slavery first came into politics through the Missouri compromise.

Science of Education.—The child learns by imitation. The action and language of the teacher are imitated by the child. The speech which he hears and imitates are such as he hears used by others. Imitation is true as well in action, habit and other things as in language. In the actions and language of the child we see revived the action and language of the family, school and community.

Grammar.—The true test for grammar is the language. If some difficult point arises do not settle it merely by authority but go to the language and test the merits of such authority.

The enrollment reached 184 on Thursday. A. E. R.
